PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building and optimizing web applications using React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB. Skilled in responsive UI development, REST APIs, authentication, database integration, and performance optimization, with experience using AI-assisted development tools and Spec-Driven Development to improve implementation efficiency.

WORK EXPERIENCE

Associate Consultant

Infosys, Bangalore | Client: Spark | Jul 2025 - Present

- Accelerated quote creation by ~40% and reduced manual pricing errors by building an end-to-end quote-to-order workflow for a B2B IT procurement platform using Next.js, React.js, Node.js, Express.js, and MongoDB.
- Secured protected application routes by implementing JWT authentication and role-based access control (RBAC) middleware using Node.js and Express.js.
- Developed REST APIs using Express.js, Mongoose, and MongoDB aggregation pipelines to support advanced quote search and multi-currency pricing, integrating live exchange rates across 5+ currencies.
- Reduced feature development time by ~30% by building reusable React.js and TypeScript components for dynamic tables, inline editing, drag-and-drop workflows, and bundle management.
- Improved frontend performance by ~25% and achieved 90+ Lighthouse Performance and Best Practices scores through lazy loading, code splitting, and rendering optimizations.
- Increased feature delivery speed by ~20% by leveraging GitHub Copilot and MCP for AI-assisted implementation and debugging, including Figma-based UI workflows.

Programmer Analyst

Cognizant Technology Solutions, Bangalore | Client: Abbott | Nov 2022 - Jun 2025

- Modernized Abbott's EMEA clinical data recording workflow by migrating it from legacy IBM Lotus Notes to a responsive Next.js and TypeScript web application, increasing user adoption by ~35%.
- Reduced screen and form development time by ~25% by building reusable React components with Microsoft Fluent UI, React Hook Form, Redux Toolkit, and SCSS, while developing custom UI components and contributing to screen design.
- Improved release reliability and cut regression defects by ~40% by writing unit and integration tests with Jest and React Testing Library.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, SCSS, Tailwind CSS, Fluent UI
Backend & Databases: Node.js, Express.js, MongoDB (Mongoose, Aggregation Pipelines), REST APIs, JWT Authentication, Role-Based Access Control (RBAC)
Testing & DevOps: Jest, React Testing Library, Postman, Git, GitHub, Docker, Azure CI/CD
AI-Assisted Development & Tools: GitHub Copilot, Model Context Protocol (MCP), Figma MCP, Playwright MCP, Spec-Driven Development

EDUCATION

CMR Institute of Technology, Bangalore
Bachelor of Engineering (B.E.) in Mechanical Engineering | CGPA: 8.9/10 | 2022

ACHIEVEMENTS & CERTIFICATIONS

- **ISRO Research Project:** Designed and developed a 6-DOF robotic arm with a gripper for capturing non-cooperative spacecraft.
- **Placement Coordinator, CMRIT:** Represented the department and coordinated campus placement activities.
- **Full-Stack Web Development - Hitesh Choudhary:** Completed hands-on training in modern full-stack web development.
